WHO WE ARE

Boasting more than 40 years experience in the marketing services arena, we're uniquely placed to offer you the best advice and the best deals. Plus, we're a family business that understands the importance of great service and high standards without making you pay over the odds for it. In order to ensure that your campaign has the very best chance of success, we're on hand to give you the benefit of our experience, and the widest possible choice of quality gifts.

During the current situation, we are facing extreme shortages of key healthcare products across the Globe. Our teams have sourced from reliable and where possible audited factories, the following approved products available on a quick ship program.

QUALITY

We work with independent Quality Control Inspectors to keep a careful eye on Quality Control during proofing, production, printing, packaging and shipping. They will arrange for all required testing for the EU market, to ensure there are no compliance issues. We have a full logistics team who work directly with Shipping Lines and Airfreight Forwarders to obtain the best rates and best schedules we need for shipments.
